The need to issue the 2015 bonds as taxable is the result of internal revenue code requirements. The term of the 2015-B bonds will be 27 years with the final maturity in 2042 which is the same term as the City's agreement with GRDA. The 2015-C taxable bonds will have an initial term of three years. At the end of the term, the city may request J.P. Limiting the number of terms to two will be added to the ordinance. The ordinance will be placed on the June 23 agenda.

9. Discussion on returning commission meetings to City Hall.

- Commissioner Martin stated he is ready to return commission and planning commission meetings to City Hall. New chairs could be purchased, the access is not a problem as the elevator is available, and the building is not a health issue. Williams was concerned about the security, stating the elevator access to second floor has been ceased by putting up a board over the opening on the second floor which would require being removed and replaced each time a meeting was held. Dennis Jacobs stated demolition bids have been prepared for first floor and for the second floor behind the marble; these will be ready to go out by June 12. The demolition will take care of many of the issues addressed in the environmental report. Martin moved to return meetings to City Hall; the motion died for lack of a second. Williams requested the city get proposals to remove mold from third floor.
