Max Williams, 3408 W. 1st Street, came to the podium to ask why the excavator that was previously purchased was a CAT and not a John Deere. It was answered that it was a used excavator that was a really good price and it was bought from a local plumber. Mr. Williams stated that he believes that all equipment the city uses should be John Deere. He then asked about when the crosswalks would be fixed as they are in disrepair. It was answered that it is on the radar to do a stamp concrete.

3. Resolution R-22-44 a Resolution to enter into an Electrical Engineering Services Agreement with Cross Discipline Engineering for the North Industrial Park Station upgrade. Director of Electric Utility stated the North Industrial Substation supports some of Coffeyville's larger industrial customers such as John Deere, Ranew's, Phoenix & Array Technologies including our Coffeyville Municipal Airport. This station was originally constructed in the 1970's, having minimal upgrades since that time. Due to age, the existing medium voltage switchgear is proving difficult to source parts for and offering limited safety protection to personnel when working in or on the station equipment. Utility staff has met with several engineering firms to discuss their ability to support a limited station upgrade such as this, evaluating each, determining that Cross Discipline provided the resources and expertise to cover not only the electrical engineering, the civil engineering aspects as well. Cross Discipline has submitted a proposal to serve as engineer for this project at a cost of \$186,450 with an option to add construction inspection/observation services estimated at an additional \$31,400 plus contingency of 15% or \$32,677.50. Overall station upgrade costs are estimated at just under \$2.5 Million, which staff intends to fund through electric reserves.

Directors are required to live within USD 445 and what this update would do is allow an employee who was promoted to a director's position remain in their current residence.
