Power plant cities do not prepay for their gas purchases like other KMGA programs do. As a result of the large gas purchases this summer related to running the power plant, KMGA is now requesting we submit our payments more quickly than in the past. This resolution would give the Finance Director the authority to process the payment to KMGA in a timely manner and then be included on the next available commission meeting appropriation report. Commissioner Falkner was concerned there was not enough documentation on why KMGA was making this request and suggested we contact them to request bills be sent to the City in a more timely manner.
